

Gator Tanks. Designed for the tough environment of wildfire and rural fire fighting.

With over 20 years experience in direct design and manufacturing of wildfire equipment, LeVan Manufacturing Inc. introduces Gator Tank. Each Gator Tank is custom built to your specifications from the most UV stabilized co-polymer available.

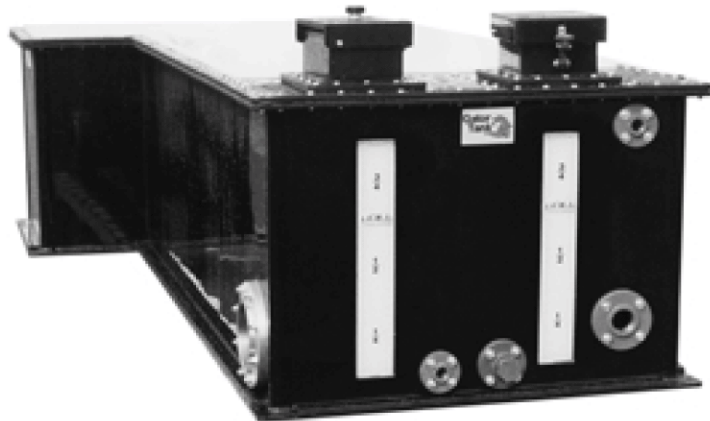

Removable lid

Water level sight gauges

Reinforced corners

Bolt-on plumbing

Gator Tanks:

- Custom built to your specifications with no additional set-up or tooling charges
- Manufactured with 1/2" thick PROTEUS® polypropylene, the most UV stabilized co-polymer available
- 100% removable lid for easy cleaning and interior tank access
- Bolt-on plumbing for easy attachment and replacement
- Calibrated, easy to read water level sight gauges
- Reinforced corners for extra protection
- Double welded seams for maximum strength
- No compromise on quality – all internal baffles and cells are constructed of the same material as the main tank
- Each tank must pass our comprehensive testing procedure before being shipped
- Meets or exceeds NFPA 1906, Chapter 11, 11.1-11.2.6
- Lifetime warranty
